### Is Your Refrigerator Wasting Ice? Or Is It--

Unsanitary.

A damp poorly ventilated refrigerator is a menace to the health of all the family. And the waste of ice will pay for a good air circulating refrigerator in two years, and at the same time do away with the unpleasantness of mixing flavors.

Do you recall taking your butter out of the refrigerator and it

tasting after some fruit that was in there at the same time? With an Odorless or White Mountain refrigerator all this annoyance is done away with.

**OF INTEREST TO WOMEN**

**Delicious Marshmallows.**

If you wish pure, delicious marshmallows soak two tablespoonsful granulated gelatin in ten tablespoonsful of water until soft. Pour ten tablespoonsful of boiling water over two cups of sugar, and boil until it makes a syrup which will form a thread when dropped from the spoon.

Remove the syrup from the fire and stir into it the softened gelatin. Let stand until cool, then all salt and flavoring, and beat until it becomes stiff enough to hold its own shape. Pour the candy into granite pans dusted with powdered sugar and let stand in a cool place until set. Cut in cubes and rolling powdered sugar.

Chocolate marshmallows are made either by coating the plain marshmallows with melted, unsweetened chocolate, or by adding melted chocolate to the marshmallow mixture before cooking. Chopped nuts or candied fruits may be stirred into the mixture after it has been removed from the fire. Instead of vanilla flavoring, fruit juice may be used in place of part of the water. Marshmallows are dainty and attractive if rolled in grated coconut before being coated with sugar.

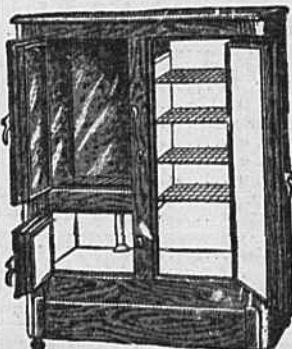

**WILLIAMS PAYS FINE.**

Lennie Williams, colored, confessed Tuesday morning in Magistrate Jackson V. Carter's court to a charge of assault and battery charged against him by his wife, Mary Williams, and drew the minimum fine of \$5 and costs. He made arrangements to pay the fine and costs and was released from jail.

**ELKS HOLD SERVICES.**

Seventy-five or more Elks marched from their home to the residence of the late Archie A. Crawford Monday evening and held lodge ritual services over his body. Many other friends were in attendance. The services were impressive. As previously announced services will be held in the church of the Immaculate Conception at 9 o'clock Wednesday morning.

## REFRIGERATOR TIME

A beautiful kitchen is primarily clean and clean looking. Cleanliness is the first among the virtues of a housekeeper.

Clean food, clean dishes, clean utensils—and why not a clean refrigerator? You can't keep a refrigerator really clean if it is lined with zinc or tin or sheet iron, merely painted or enameled. Dirt collects, germs breed, disease lurks there.

For real cleanliness, you should have a Leonard Cleanable Refrigerator with its wonderful porcelain lining—"like a clean china dish," made in one piece, without crevices, corners or cracks. This porcelain lining is everlasting—you can't scratch it even with a knife.

Don't think of buying a refrigerator without at least looking at the "Leonard Cleanable." Nine out of every ten persons who inspect it at our store, put in an order for one. That's pretty good evidence, isn't it? We have an interesting booklet for you, too—"Selection and Care of Refrigerators," written by President Leonard himself. Call for your copy—it's free.

Porcelain Lined... \$16.00 up  
White Enameled... \$ 7.50 up
